Review and start run

Review your run below. Look good? Confirm to start your run. Interested in unlimited, unmetered testing? [Learn more](#)

Execution timeout

Limit the maximum number of device minutes that your run can use by setting a timeout on each device. If execution exceeds your timeout, execution on that device will be forcibly stopped. Partial results will be available if possible.

150

MAXIMUM MINUTES PER DEVICE

×

=

600

MAXIMUM DEVICE MINUTES FOR THIS RUN

5m

77m

150m

You should choose a value that is greater than the anticipated duration of your tests. For example, if your tests take 20 minutes to complete you should choose a timeout of 30 minutes. Need to run tests longer than 150 minutes? Please [contact us](#).

Automated tests

Remote access

Project settings

Automated runs allow you to execute built-in tests or your own scripts on one or more devices in parallel, generating a comprehensive report that includes high-level results, logs, screenshots, and performance data.
